QUAD 28K & 7000 OPERATOR SPECIFICATIONS

Quad 28K Non-Handed & Quad 7000 Surface Mounted Automatic Swing Door Operators are designed for indoor mounting. The Quad 28K & 7000 can be used with a single or double, in-swing or out-swing door. Pressing the activating switch engages the operator to slowly open the door for a delayed time (can be adjusted) before closing.

Standard System Features and Benefits:

- Low energy applications.
- Rugged, non-handed design.
- Quad 28K Headers to be surfaced mounted onto door frame and panel provided by others.
- Unit to be actuated by push plate or push button switch mounted on each side of opening for two-way traffic.
- Built-in relay for electric strike with unlock delay.
- Compliant with ANSI A156.19, A117.10 and Americans with Disabilities Act of 1990.
- ETL & UL Listed Product.

Adjustments:

- Opening and closing speeds are fully adjustable for different door sizes and weights.
- Time delay: 1-99 seconds (ANSI 156.19 requires 5 second minimum time delay.)
- Opening force and hold open torque are fully adjustable.
- Available feature: Push and Go automatic activation by pushing or pulling door panel.

Electrical Requirements:

- Provide 120 VAC, 60 Hz, single phase, 15 amp, dedicated circuit to unit. Maximum Current draw is 3.15 amps.
